Florida Skin Center secures fourth location to open in Punta Gorda during first quarter of 2018

PUNTA GORDA, Fla. (July XX, 2017) – Florida Skin Center has closed on a fourth location at 329 East Olympia Avenue in Punta Gorda. It will include a 7,000 square-foot, two-story building, which will open in the first quarter of 2018, and an attached 1,000 square-foot satellite building.

The interior of the main building will be completely renovated, refurbished and architecturally modernized to include the marble and granite countertops, as well as the wood cabinetry found at the first three locations. Likewise, amenities will include spacious lounge areas and examination rooms, ongoing movies in the children’s waiting room, Wi-Fi, coffee and juice bar, and diffused air throughout the facility.

The parking lot in front of the main building will accommodate approximately 24 vehicles, with 18 additional parking spaces available in an asphalt lot directly behind the building at 325 Hargreaves Avenue. The exterior of the main building will be painted, and landscape improvements will be made. Restoration to the adjoining satellite office is expected to follow the grand opening of the main building.

“For 16 years, we have fulfilled a need in the dermatological market of Lee County, and now it is time to provide that same five-star service to Charlotte County residents,” said Anais Aurora Badia, M.D., D.O., Founder. “Our patients will drive through a prime business district to enter a luxury medical care establishment that fits the needs of children and adults alike.”
